MME. CAILLAUX IS ACQUITTED OF MURDER

State Historical and Public Library Society

WILD TUMULT FOLLOWS JURY'S VERDICT

Barristers and Guards Fight, Opposing Lawyers Embrace, as Great Trial Ends

PARIS, July 28.—Madame Henriette Caillaux tonight was acquitted by a jury in the court of assize of the willful murder on March 16, last, of Gaston Calmette, editor of the Figaro. The verdict was returned after 50 minutes' deliberation. The announcement was followed by the wildest tumult.

Mme. Caillaux staggered and then threw her arms around the neck of her counsel, Fernandi Labori. Her hair was undone, falling over her shoulders, and her hat dropped to the floor. The spectators stood upon tables and chairs. "Caillaux, Labori," cries of "Caillaux, assassin," mingled into one. Several groups of barristers came to blows, and the republican guards, in an endeavor to separate them, joined in the melee. The spectacle of Labori and Chenu, the latter counsel for the Calmette family, embracing each other, calmed the tumult for a moment, but it was redoubled when they left with Mme. Caillaux.

Judges Leave Court.

Failing to make himself heard, the presiding judge, followed by the other judges, marched out of the room. The advocates took complete possession of the court; some of them cleared a portion of the room and comparative quiet was restored. Judge Albanet then returned and read the judgment, ordering the release of Mme. Caillaux.

Shaken with emotion, Mme. Caillaux left by the witnesses' door, the guards making a lane through the crowd. She covered her face with her hands, as if to shield herself from the furious cries of "murderess," and, by way of a number of narrow corridors and back staircases, she reached a small side door in the palace of justice, where an automobile was waiting, and drove off unobserved.

Caillaux left by the main entrance on the arm of his devoted friend, Deputy Pascal Cecaldi, amid mingled cheers and hoots.

End of Sensational Trial.

Thus ended the most sensational trial with which Parisian courts have

TRAIL MARKERS START FOR COLORADO SPRINGS

Scout Party Completes Work and Will Follow Different Route on Return Trip

Special to The Gazette.

PROVO, Utah, July 28.—The Gazette-Telegraph scout car arrived here tonight in company with the Grand Junction pilot car, after a good day's run from Salt Lake City where the commercial club boosters gave the pioneers a great send-off. The scouts were met by a delegation from Heber City which advised them to make the return trip by way of Provo canon and Daniels canon to Heber City, thence through Strawberry valley to Theodore, as the roads were in better condition than over the Spanish Fork, Colton and Theodore route. The detour through Heber City will be taken by the pioneers.

The pilot car from Grand Junction is making the entire run with the scout car and much interest and enthusiasm is manifested in their progress by the highway boosters en route. The trip from Salt Lake City to Provo was made over the finest stretches of roadbed on the highway and the two cars made good time.

ELEANOR PAINTER TO MAKE AMERICAN DEBUT IN FALL

Colorado Springs Soprano Will Create Role of Georgine in New Opera, "The Purple Domino"

Eleanor Painter, wife of Wilhelm Schmidt of Colorado Springs, will make her American debut in New York next fall in Andreas Dippel's light opera company. Miss Painter has never been heard in her native country since achieving a reputation in Europe, and has never appeared on an American stage. She will create the role of Georgine in Charles Cuvillier's "The Purple Domino," which will be one of the novelties of the Dippel season.

Miss Painter, a coloratura soprano, is a young artist of the type of Geraldine Farrar, and possesses a vocal and dramatic talent of a high order. She sang in church choirs here for several years, later going to New York to sing in Dr. Parkhurst's church. Later she went to Berlin to study. She began her stage career at the Stadt Charlottenburg opera in Berlin and attracted the attention of Dippel while singing leading roles there. Her contract was signed at Carlsbad last [illegible]

WAR NEWS TURNS WHEAT PIT INTO SEETHING ARENA

BROKER MAKES $25,000 IN FIVE MINUTES

Prices Soar and the Greatest Flurry in Many Years Ensues

CHICAGO, July 28.—The wildest scenes witnessed in the wheat pit of the board of trade here since the opening of the Twentieth century were precipitated today by Austria's declaration of war against Servia.

Transactions totaling nearly 100,000,000 bushels sent prices skyward, the later rises being from 8⅞c to 9¼c.

Stories of fortunes made and lost were numerous, the most specific case of sudden riches being that of a heretofore obscure trader who actually pocketed $25,000, which he had netted in an interval of exactly five minutes.

Hundreds of spectators thronged the galleries watching the traders struggling and tumbling about in the pit. The uproar was plainly audible in the streets surrounding the Board of Trade building.

No Failures Announced.

Although failures were momentarily looked for, there was none announced. Tonight, however, margins were being called for right and left, and to such a wide degree that it seemed certain the volume of business tomorrow would be greatly restricted as compared with today, regardless of how high or low the market might go. The risk of speculating at all in such a frenzied market formed strangely one of the elements that promised to bring about speedy order, notwithstanding that the close today was at the tiptoe of the excitement, with values at the highest pinnacle reached. How hazardous the situation was termed tonight was shown by the action of leading firms in demanding that all customers put up margins of 20 cents a bushel on every trade.

Bullish Sentiment Soars.

The first throb of excitement was given when the news came that quotations had been discontinued at Paris. Bullish feeling rose rapidly after advices were received that Germany would stand aloof from any peace conference. Even after the bulletin of the declaration of war there was a check in the shape of a report that Servia had conceded everything asked. It was dispatches later, seeming to involve Russia and Great Britain, that carried speculators completely off their feet.

In the end the market resolved itself into a spectacle of bulls frantically selling to bulls. There were no bears in sight.

Would Restrict Speculation.

In some quarters there was a disposition tonight to regard the calling of margins to an extent of 20 cents a bushel as next door to the action of European and Canadian authorities in locking the doors of exchanges outright. The effect of demanding such heavy protection for brokerage houses, it was said, would be to restrict speculation to a minimum, and to shut off ventures from small-caliber traders who might easily work far-reaching damage by not standing by obligations should the market take an unexpected course.

High margins were defended tonight by those responsible, the ground being taken that the present situation was only paralleled by conditions in the American Civil war and at the time of the Franco-Prussian war.

FIVE POUNDS OF BUTTER BRINGS $500 IN SPRINGS

Pioneer Who Is Here on Visit Recalls Day When Record Price Was Paid

One of the few men who recall the day that five pounds of butter sold for $500 in Colorado Springs is a visitor in the Pikes Peak region. John R. Hoy of Blackwell, Okla., tells the story.

"It was years ago," said May yesterday, "and the incident that caused such a price to be paid for butter was the laying of the cornerstone at Colorado college. At that time Colorado college was far north of the settled portion of the town. The cornerstone laying had been talked about for several weeks, and many people sent various articles to be placed beneath it. Col. John H. Bacon, a pioneer resident of the town, and once mayor, presided at the exercises. The ceremony was in progress when a note and a package were received from a woman living several miles away on a ranch. She said she did not have anything else to give, so sent five pounds of butter to be placed under the cornerstone. This was impracticable, of course, and it was decided to sell it to the highest bidder. Under the circumstances, there was some spirited bidding, and the package was finally run up to about $150. The purchaser paid over the money, handed the butter back to the auctioneer and told him to resell it. This was done, and the butter was bought, paid for and handed back several times until the amount realized was $[illegible]."

CARRAJAL'S ENVOYS REACH VERA CRUZ

Take Circuitous Route to Avoid Capture by Gen. Orozco's Men

TAMPICO, Mexico, July 28.—General Carranza in a statement last night outlined his plan for the settlement of all foreign claims arising from the Mexican unrest. The statement was made by the general to a party of 25 American business men of Tampico, headed by American Consul Miller, who called to pay their respects.

Each claim against the government, according to the statement, will be settled by a commission composed of representatives of each foreign nation having a grievance. An equal number of Mexicans also will serve as arbitrators. Mexican claims will be settled by a body made up entirely of Mexicans. General Carranza left early today for Monterey.

Envoys Fear Orozco.

VERA CRUZ, July 28.—Unwilling to take chances of being captured by Gen. Pascual Orozco, Jr., who is operating along the line between San Luis Potosi and Tampico, Gen. Lauro Villar and David Gutierrez Allende, Provisional President Carbajal's peace delegates, were sent from the capital last night over the Mexican railway to this port, whence, at the earliest moment, they will go to Tampico and there confer with General Carranza's appointees.

The federal peace delegates were instructed by President Carbajal to insist upon the granting of an amnesty and the recognition of the regular army as it was at the time of the overthrow of the Madero administration. They also were instructed to inform the Constitutionalists of the provisional president's willingness to turn the government over to the Constitutionalists, but the president urges that he be permitted to name some Constitutionalist whom the Carranza party could designate as minister of foreign affairs, and who, upon Senor Carbajal's retirement, would automatically become provisional president of Mexico.

These terms are the only ones upon which President Carbajal insisted. He said, just before the departure of his representatives, that it was immaterial to him where the conference was held.

A special train brought the peace delegates to Vera Cruz. They were met at the station by Brigadier General Funston, who greeted them with an offer to do anything he could to facilitate their trip to Tampico.

General Villar and Senor Gutierrez Allende, accompanied by General Funston and W. W. Canada, the American consul, went to a local hotel, where they will remain pending the outcome of negotiations for a boat to take the delegates to Tampico.

BUTTE MAYOR SCORED FOR RIOT STATEMENT

Must Retract or Be Thrown Out of the Socialist Party by Miners

DENVER, July 28.—Action on the recent disturbances in the local union of Butte, Mont., of the Western Federation of Miners was taken here today by the federation in convention, when a resolution was adopted censuring Mayor Duncan of Butte for statements by him in which he was quoted as saying that President Charles H. Moyer had requested the sending of Montana militiamen to Butte. The vote on the amending of the resolution was defeated, 144 to 15. The resolution scores Mayor Duncan in strong terms, requests that he retract the alleged statement, and, upon failure to do so, recommends the expulsion of Mayor Duncan from the Socialist party."

With the arrival here tomorrow of Frank J. Hayes, vice president of the United Mine Workers of America, the proposition to amalgamate the Western Federation of Miners and the United Mine Workers of America will be taken up. The proposition has been favorably reported to the convention by the committee on organization and education, to which it was referred.

J. D. Ryan of the United States bureau of mines rescue department addressed the convention late today.

AUSTRIA DECLARES WAR ON SERVIA; HOSTILITIES BEGIN

Germany Paves Way for Declaration by Refusing to Enter International Peace Conference Proposed by England; Armies Move Like Clockwork; Fighting Commences on Border

AUSTRIANS CLAMOR FOR WAR; HAVE NO FEAR RUSSIAN LION

Events Have Gone Too Far for Change in Program, Say Government Officials

VIENNA, July 28.—It is with a feeling of intense relief that the people in the dual monarchy look forward to the war with Servia, which was today formally declared.

Even certain knowledge that Russia would intervene, would not now cause Austria to hesitate a moment or alter her course in the slightest.

News of the formal declaration of war ran through the city before extra editions of the papers could reach the venders' hands and was everywhere greeted with a spirit which might be described as close to religious exaltation.

Vienna is absolutely without news of the movements of the troops, which the papers are naturally forbidden to print. A sharp censorship has been established over the press and all means of communication. An immense, but quiet, crowd which constantly increased in numbers, assembled before the war ministry. Cheers greeted the appearance of military officers and the ministry officials. The evening papers published the following inspired statement:

Has Gone Too Far.

"In well-informed circles the view is held that so far as Sir Edward Grey's proposal is to localize the conflict between Austria-Hungary and Servia the former can declare herself entirely agreed with Sir Edward Grey's remarks, but regarding what he has said concerning the suppression of military operations, affairs have proceeded much too far to allow anything to be done in this direction."

Advices from Belgrade say that the Servian capital is now located at Nish, where the skupshtina (national assembly) met today. All Servians between 18 and 60 years of age able to bear arms have been called out and mobilization is proceeding rapidly. Although the peasants, who will have to leave their harvesting, are reported to be much discontented.

Sharp Fighting Reported.

Sharp fighting is reported along the river Drina where Servian volunteers who attempted to cross the river were resolutely opposed by Austrian frontier troops. It also is reported that Servians fired on their own river transports by mistake, killing and wounding a number of soldiers.

The ministry of foreign affairs has addressed a verbal note to the foreign representatives, informing them of the declaration of war and declaring that Austria will, on the assumption of similar observances on the part of Servia, adhere to the provisions of The Hague conference of October 15, 1905, and the declaration of London on February 26, 1909.

President Wilson Plans Vacation in the Late Summer

WASHINGTON, July 28.—Information from Democratic leaders in congress today that adjournment might be expected about August 25, led President Wilson to begin laying plans for his vacation. The president has been bearing up well under the hot weather of the last few weeks, but he is anxious to get Mrs. Wilson away from Washington.

The president probably will leave for his summer home at Cornish, N. H., just as soon as congress adjourns.

Late in September or early October, Mr. Wilson probably will go into Iowa and several other states to help Democratic candidates in their campaigns. So far he has made no definite plans for a speaking tour, but the understanding is that he believes his administration will be on trial at the elections and that he ought to go out and talk to the voters.

DENVER RESPONSIBLE FOR MOFFAT TUNNEL EXPENSES

DENVER, July 28.—The city of Denver is responsible for expense incurred by work on the proposed Moffat tunnel, according to an opinion handed down today by the city attorney's office, at the request of Auditor James F. Markey. This opinion follows a notice served by the city council yesterday on the tunnel commission that it would no longer be responsible for the commission's indebtedness. About $10,000 is said to have been expended.

MOVE BY RUSSIA WOULD MEAN GENERAL EUROPEAN OUTBREAK

ALL EYES ON ST. PETERSBURG, WHERE IMPORTANT CONFERENCES ARE BEING HELD; ENGLAND WOULD BE FORCED TO SUPPORT FRANCE AND RUSSIA SHOULD GERMANY MAKE MOVE

LONDON, July 28.—The Austro-Hungarian government declared war against Servia today by a manifesto which is one of the briefest of history's momentous documents.

Germany paved the way for this declaration by announcing her rejection of the British proposal to bring four powers together in conference for mediation. Germany explained that her ally could not be expected to submit her acts to a European council as though she were one of the Balkan states.

This announcement preceded the declaration of war by only two hours, and gave an exhibition of the perfectly harmonious workings of the partnership between the two nations which stood firmly together through the Bosnian crisis of 1909.

ST. PETERSBURG NOW IS CENTER OF INTEREST

The center of interest has shifted sharply to St. Petersburg, which holds the decision whether a European war, which probably would shift the balance of power, if not rearrange the entire map of Europe, is to break out. Negotiations are afoot there between the Russian foreign minister, Sergius Sazonoff, and the Austrian ambassador, which are designed to "localize" the conflict.

The nature and progress of these conversations are wrapped in the thickest mystery, but they are the last plank the neutral powers are clinging to in the face of a storm which may wash all under.

AUSTRIA TO WIPE SLATE CLEAN OF ALL ACCOUNTS

There is no doubt in British minds that Austria had fully resolved to utilize the provocation afforded by the Sarajevo murders to wipe the slate clean of all accounts against Servia, and served an ultimatum on her which was designed to have no result save war.

The next news expected is the occupation of Belgrade, and that even now may be an accomplished fact. Reports of small encounters along the frontier have been permitted to pass the censor, but military experts here believe mobilization has already been effected and that a thoroughly planned campaign is well under way.

ENGLAND WOULD SUPPORT FRANCE AND RUSSIA

There is absolutely no enthusiasm in England for war—no desire for this particular war which confronts Great Britain—yet there is a general belief that her obligations to her partners in the triple entente, as well as her interests as a great European power, will force her to support Russia and France in any steps they may take.

The dark developments of the day were received without excitement, but with the deepest gloom. The immediate effect of the war cloud is likely to be a compromise on home rule, since all parties feel that domestic dissensions must be settled at all cost in the face of peril from without.

FRENCH GOVERNMENT PREPARING FOR WAR

Troop Trains Ready; Country Is Awaiting the Decision of Russia

PARIS, July 28.—The French government and people appear to be quietly preparing for war. The government is simply awaiting the decision of Russia.

Troop trains are ready and representatives of the army are on duty in the telegraph, telephone and post-offices.

The cabinet met late this afternoon and received the reports from ministers. If any decisions were reached, they have been kept closely guarded. Abel Ferry, undersecretary for foreign affairs, who took part in the cabinet council, is on his way to Dunkirk tonight to meet President Poincare and Premier Viviani, who will arrive there at dawn.

According to what is believed to be responsible opinion, there remains the possibility that, when Austria has occupied some Servian territory, she will in a day or two announce her intention not to proceed further, but to hold what she has taken until Servia gives competent guarantees that she will observe Austria's wishes. Russia would not then be likely to intervene, it is argued, except diplomatically, and negotiations appear to be going on at the present time between Austria and Russia.

On the announcement of war tonight Paris became animated. There were patriotic demonstrations in the capital and many other cities throughout the republic, but there were also demonstrations against the war.

Aviators Offer Services.

A large number of noted French aviators, led by Rolan Garosse, in a letter to the minister of war, have offered their services.

Maurice Barres, member of the chamber of deputies and president of the League of Patriots, has issued a call for a big demonstration on the arrival at Paris of President Poincare to signify affirmation of the triple entente and readiness for the service of France.

TRUSTS IN ALMIGHTY AND ARMY TO BRING AUSTRIAN VICTORY

Emperor Francis Joseph Makes Appeal to Subjects for Their Loyalty

VIENNA, July 29—(Wednesday)—A manifesto issued by the emperor, after stating that it had been his fervent wish to dedicate his declining years to preserving the empire from the burdens and sacrifices of war, says:

"Providence has decreed otherwise. The intrigues of a malevolent opponent compel me, in defense of the honor of my monarchy and for the protection of its dignity and the security of its possessions, to grasp the sword after long years of peace."

The manifesto refers to the ingratitude of Servia for the support the emperor's ancestors afforded to Servian independence; how Servia for years has pursued a path of open hostility to Austria-Hungary; how Austrian annexation of Bosnia and Herzegovina, which injured no Servian rights, called forth in Servia outbreaks of the bitterest hatred.

Has Befriended Servia.

"My government," continues the emperor, "then employed the handsome privileges of the stronger and, with extreme consideration and leniency only requested Servia to reduce her army to a peace footing and promise to tread the paths of peace and friendship."

Then recalling that it was Austrian forbearance two years ago that enabled Servia to reap the fruits of the struggle against Turkey, the emperor says:

"The hope that Servia would keep its word has not been fulfilled; the

had to deal with in years. Each day proved its dramatic thrill and, though the verdict has been pronounced, the outcome cannot be foretold.

The session of the court was devoted to speeches by counsel. Mme. Caillaux had come into the prisoner's dock pale and worn. She collapsed during the course of the address of Maitre Chenu, who scored her bitterly.

The speech of the procurator-general, Jules Harbaux, was unusually mild in tone. To the jurors he said:

"Your duty as the defendants of the interests of society, requires you to find a verdict of guilty, but no one expects you to be pitiless."

Maitre Labori, who came last, delivered a masterpiece of passionate eloquence. He closed amid a tempest of applause, saying:

"My wish is that Mme. Caillaux shall leave here acquitted and that the press shall be purified. Let us keep our anger for our enemies abroad. Let us leave this court resolute and united to face the perils which threaten us."

Figaro Criticises Verdict.

PARIS, July 29 (Wednesday).—The Figaro comments bitterly on the acquittal of Mme. Caillaux, calling it the verdict of "shame and the greatest scandal of our epoch."

WOMAN LOST IN MOUNTAINS FOUND BY RESCUE PARTY

The first story of the season dealing with the rescue of mountain climbers came from the town of Cascade last night. Mrs. Albert H. Page of Chicago, who is spending the summer at the resort, furnished the material.

Yesterday afternoon Mrs. Page left the hotel to climb Faith mountain. Darkness overtook her before she realized the lateness of the hour and she was far up the slopes of the peak. After an hour's effort in trying to find her way down the mountain Mrs. Page decided not to risk a fall in the dark and shouted for help. Her cries were heard far below at the hotel and a rescue party was organized. The searching party found her shortly before 10 o'clock, about six hours after she had started out.

NEBRASKA DEMOCRATS TAKE SLAP AT BRYAN

Senator Hitchcock Favored for Reelection; Wilson Administration Indorsed

COLUMBUS, Neb., July 28.—The resolutions committee of the Nebraska platform convention made a unanimous report late tonight indorsing the national administration and Senator Gilbert Hitchcock and all Democratic members of the house from Nebraska.

The report was quickly adopted by the tired delegates and adjournment taken.

For a time today the harmony, which it was hoped would be the principal feature of the Democratic state platform convention, was threatened by a division over the methods of chosing the platform committee.

After a somewhat heated discussion a compromise was effected, each county delegation nominating one member of the committee. Merton L. Corey of Clay Center presided as chairman of the convention.

What was considered in the nature of a test vote between the followers of Bryan and Senator Hitchcock was taken in the election of secretary of the state committee. The latter were successful, electing Bert Sprague over E. S. Kemble by 649 to 411.

Dynamite Trees on Reed Estate to Save Growth

DENVER, July 28.—Sixty trees that surround Stoiberhof, the palatial home of Verner Z. Reed, will be dynamited Thursday by the Colorado Forestry & Landscape company in an effort to preserve their lives.

Poor drainage and insufficient nourishment have caused the stately soft maples to turn yellow, and it is feared that unless drastic measures are taken at once death will result.

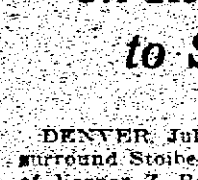

The force of dynamite, which is applied downward, loosens the earth for several feet around the tree, and when a whole area is "shot," a better drainage system is opened up.

When the hard earth is broken and cracked by the shock, the small roots are better able to reach the plant food in the soil.

Woman Defies the Police and Water Officials With Gun

PUEBLO, Colo., July 28.—Armed with a repeating rifle, Mrs. Mary Martinez barricaded herself in her home here today and successfully kept off officers of the local water company and members of the police force who had gone to the woman's house to shut off the water supply. The water company officials were informed that neighbors were getting their supply of water at the Martinez home, which is the only domicile in the neighborhood connected with the reservoir. When they sent men to shut off the supply today Mrs. Martinez warned them away with a gun. Later a detachment from police headquarters went to the scene but upon being threatened with death, they withdrew. The water company will probably file a suit to accomplish their purpose.

The Military academy at West Point was established by an act of congress in 1802.

TWO APPROPRIATION BILLS FINALLY PASS

Two Supply Measures Remain to Be Passed Before Adjournment

WASHINGTON, July 28.—Congress today passed the last two big general appropriation bills of the session, the sundry civil and general deficiency measures. But two supply bills, the Indian river and the harbor bills, remain to be passed and a final conference report on the former was adopted by the senate today. The river and harbor bill is being held up by a determined filibuster in the senate.

Objection in the house cut out of the deficiency measure at the last moment a senate amendment appropriating $175,000 for longevity pay claims of Confederate officers who left the United States army at the outbreak of the Civil war.

As finally agreed upon, the Indian bill carries no provision for the proposed per capita payment of $100 to the Choctaw nation of Oklahoma. Efforts to include the Mississippi Choctaws caused the appropriation to be eliminated.

The Flathead Indians, for whom the senate proposed to appropriate $250,000, will get $100,000 for irrigation projects on their reservation.

REBELS WIN TWO MORE VICTORIES

DOUGLAS, Ariz., July 28.—Two Constitutionalist victories were reported by General Obregon today in a telegram to Yves Lelevier, Constitutionalist agent here.

One fight was at Lapiedad, between Guadalajara and Mexico City, where the federals were found strongly intrenched. General Obregon reported a nine-hour battle ending in the flight of the federals, who left 62 dead and 14 wounded. "We captured many prisoners," the telegram says, "300 rifles, much ammunition and the paymaster's safe."

The other fight occurred when federals at Manzanillo, believed to be the garrison which evacuated Guaymas, attempted to retake Colima, just behind Manzanillo, which was captured by Constitutionalists a few days ago. General Obregon reports 300 federals killed and the remainder routed in this fight. He also reported the capture of Pizano, whom he calls "the famous assassin of the Diaz regime," and who was ordered executed "for numerous past offenses."

SIX I. W. W. SENT TO PRISON FOR TRYING TO MOLEST J. D. ROCKEFELLER

TARRYTOWN, N. Y., July 28.—Six of the nine Industrial Workers of the World on trial here for attempts to hold a meeting in Tarrytown in May to charge John D. Rockefeller, Jr., with responsibility for the bloodshed in the Colorado strike, were convicted and sentenced today to a uniform two months' imprisonment in the New York city penitentiary. The seventh was convicted, but released upon suspended sentence by Judge Moorehouse. The eighth was discharged for lack of evidence.

Rebecca Edelson, the ninth prisoner, who was brought to court on a habeas corpus writ from the workhouse on Blackwell's island, was sent back to the workhouse at the close of the sitting today. Miss Edelson, who is serving a three months' sentence in default of furnishing bail to keep the peace, has been on a hunger strike.

She was brought to Tarrytown in a motor car with a nurse in attendance. Pale and weak, after being carried into court, she testified in a low voice. She appeared to be physically exhausted, but mentally alert.

Efforts of Justus Sheffield, counsel for the accused, to have Miss Edelson put on trial today were unsuccessful, the judge ruling that, as a witness in court, she could not be tried until the expiration of her present sentence.

No White Slavery in Germany, Says Dr. Kopp of Berlin

BERLIN, July 28.—There is no such thing as white slavery, in the sense in which the term is usually employed, according to Dr. Kopp of the Berlin police department, who appeared as an expert witness in the prosecution of Samuel Lubelski, charged with decoying girls over the Russian border and sending them to resorts in South American and other cities. Dr. Kopp said:

"There is a widely held impression in the public that innocent girls, by force or trickery, are placed in houses of ill repute and held there against their will. As a matter of fact, a case of that nature has never occurred. Even the various associations organized to prevent white slavery have up to this time never been able to point to a single case of this kind."

Nearly a year ago another prominent criminal authority of Germany declared that not one case of the forcible detention of an unwilling girl in a brothel had ever been established in Germany. There was a chorus of protest at the statement, led by the organizations engaged in fighting the alleged evil. The expert answered by inviting them to submit proof of a case of the kind. They have not yet done so.

CARRANZA IMPOSES TAX ON ALL OIL COS.

TAMPICO, July 28—(Via Laredo)—General Carranza today imposed a special tax of 60 cents a ton on petroleum produced in Mexico and an additional tax of 10 cents Mexican gold per ton for Tampico harbor importations.

The tax is to be paid by affixing stamps to invoices covering oil shipments. In this way the Cowdray interests (British) and the Huasteca company (American), exempted from taxes by a concession from Diaz, will be required to pay the present tax, a commercial one, which Diaz did not exempt.

The tax imposed by Huerta was $1.20 Mexican per ton.

The estimated cost of producing oil in this district is 13 cents a barrel, making the cost, with the tax, a fraction over 18 cents. The lowest selling price is 42 cents.

COLORADO CROPS ARE IN GOOD CONDITION

DENVER, July 28.—The weather bureau's weather and crop statement for the week ending July 27, follows:

"The week was characterized by marked cloudiness, frequent showers, heavy rain in localities especially in the south central counties, and weekly mean temperature below the seasonal average. In the western valleys the deficiency in temperature was quite marked.

"Satisfactory crop growth has been nearly general. The improvement in the condition of the ranges has been marked. Small grain is being harvested and in a few localities threshing is under way. The harvesting of the second crop of alfalfa has started on the eastern slope and will be general within a few days; the yield is generally good. The condition of alfalfa, sugar beets, corn and potatoes is exceptionally good. Early potatoes are being marketed in the western part of the state, and early fruit is being shipped from the western fruit districts. Cherries and berries are practically picked on the eastern slope."

RHODE ISLAND PROGRESSIVES CLEAN OUT ORGANIZATION

PROVIDENCE, R. I., July 28.—The executive committee of the Progressive party of Rhode Island tonight removed its entire list of officers and voted to reorganize. The committee passed resolutions declaring that the officers "from the highest to the lowest should always be subject to the recall."

BULGER JURY COMPLETE

DENVER, July 28.—The jury in the trial of Col. James C. Bulger, charged with the murder of L. F. Nicodemus, a hotel proprietor of Denver, May 4 last, was completed today. The defense of Bulger is expected to be a plea of insanity.

MRS. ANGLE IS HELD FOR BALLOU MURDER

STANFORD, Conn., July 28.—Mrs. Helen M. Angle is held criminally responsible for the death of Waldo R. Ballou, a prominent politician here, on the night of June 23, in a finding made by Coroner John J. Phelan today.

Ballou was discovered in a dying condition outside a downtown business building in which Mrs. Angle had apartments. To the police that night, Mrs. Angle said she found Ballou at the foot of a flight of stairs in the building after he had left her and that it is believed he was dazed from a fall or from liquor she carried him outside and left him on the doorstep of the entrance.

Ballou died from a fractured skull.

At the coroner's inquiry Mrs. Angle refused to make a statement and Coroner Phelan announced that if, by Friday last, she failed to do so, he would hold her for trial. He admitted Mrs. Angle to bail, owing to her nervous state, and she was taken by her father, Leonard Blondell, to Southport, Maine.

MRS. EFFIE M. CHADSEY DIES IN DENVER, AGED 83

DENVER, July 28.—Mrs. Effie M. Chadsey, 83, mother of former Superintendent of Schools Charles E. Chadsey of Denver, died here today. Mr. Chadsey is now superintendent of schools of Detroit.

BEATEN WITH OWN SHOE AND IS ROBBED OF $15

DENVER, July 28.—Fred Bison, 45, was rendered unconscious on the west side late tonight by four young men, who beat him with his own shoe and robbed him of $15. His condition is serious.

CASTALLOT DENIES HUERTA AND DIAZ ARE IN REVOLT PLOT

WASHINGTON, July 28.—Joseph Castellot, personal representative here of Provisional President Carbajal, today emphatically denied published reports from Toronto that General Felix Diaz was expecting General Huerta there to present a counter revolution in Mexico. The report was very disturbing to Washington diplomats.

Castellot conferred with Secretary Bryan and declared very satisfactory progress toward a peaceful agreement with Carranza was being made.

Official advices from Vera Cruz indicated that a complete and satisfactory agreement would be reached whereby the Zapatista forces would cooperate with the Constitutionalists in establishing a new government in Mexico.

The only disturbing factor in the general situation from the viewpoint of administration officials, was the decree by General Antonio Villareal expelling foreign priests from the state of Nuevo Leon, where he is military governor and restricting the activity of the Catholic church.

NEWNESS IN BUILDINGS

From the Kansas City Star.

A new building, clean and freshly painted, is one of the most unattractive things in the world. Take a shining new house, set in a treeless lot, without shrubbery or vines. It looks as harsh and bumptious and obtrusive as a fresh young agent who sets his foot inside the door the moment it is opened to keep it from being shut in his face.

Age is needed to give charm and dignity to buildings, to make them a part of the landscape. A new piece of stonework or brick or stucco stands up like a sore thumb. It doesn't fit in with the rest of things. The planet is somewhat weathered by the winds and rains of millions of years, and a permanent addition to it needs at least a little weathering to harmonize.

The gray of the great cathedrals which have accumulated the smoke and dust and grime of centuries is a great source of charm. To clean Westminster Abbey's hoary walls would ruin them. An example of the cheapening effect of newness is conspicuous in Kansas City in the partly cleaned front of the new station. The gray stonework is wonderfully impressive in its massive dignity. But where the stones have been cleaned and whitened they give the impression of staring artificiality and primness wholly out of keeping with the general scheme of a monumental city entrance. Happily in the case of the station the devastation wrought by the cleaning will be repaired within a few years. Meanwhile it may stand as a horrible example.

New things generally are more or less distressing—new shoes, new clothes, new houses. They all have to be lived with awhile before they get humanized.

EASY TO DARKEN YOUR GRAY HAIR

Tea Can Bring Back Color and Luster With Sage Tea and Sulphur

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture at home is mussy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger. Adv.

FINANCIAL CENTERS OF WORLD THROWN INTO PANIC BY LATE DEVELOPMENT IN WAR SITUATION

Wall Street Evidences Panicky Conditions; Secretary McAdoo Says United States Has Plenty Gold to Meet Any Emergency That May Arise in European Conflict

Expectation of war between Austria-Hungary and Servia and the subsequent declaration today demoralized the markets of the world.

In Vienna the bourse had been closed since Saturday, but there was a heavy run on the Austrian Savings bank, the most important in the dual monarchy.

In Paris the commercial exchange suspended all dealings in grains, sugar and other commodities, and exchange on London and private discount for the first time in years were not quoted.

In Berlin runs on savings banks, begun yesterday, grew heavier.

In London, after the close of the stock market, stocks tumbled on the curb.

News of the declaration reached this country while markets were in session. With it came an avalanche of foreign selling on the New York stock exchange. Leading securities slumped from 5 to 20 points, and conditions paralleled in their intensity the domestic panic of 1907.

The stock exchanges of Montreal and Toronto suspended their sessions.

In the Chicago board of trade there was a tremendous rise in wheat and the wildest trading in many years.

Foreign exchange was demoralized and millions in gold were engaged at New York for shipment to London and Paris.

Effect on Wall Street.

NEW YORK, July 28.—Austria's formal declaration of war against Servia was followed by a violent decline in quoted values on the local stock exchange today, preceded by convulsive disturbances at leading financial centers abroad.

Prices were dropped from 5 to 15 points in many of the high-grade issues, Canadian Pacific scoring a maximum decline of almost 20 points. Selling for foreign account was incalculable, much of it taking the form of direct orders from London, Paris and Berlin. Of the more than 1,000,000 shares that changed hands here, it was estimated that fully 200,000 represented offerings from across the water.

The local market, while somewhat nervous and weak was holding itself well in hand until word came at midday of Austria's attitude. Immediately there came an avalanche of liquidation from all directions. The sharpness with which securities declined betokened enforced selling, materially assisted by bear raids. Outpourings continued to the very close, a few issues recovering a small part of their loss.

Trading in United States Steel, aggregating 200,000 shares, constituted the main features of the day's business, which was the largest of the year. There were also heavy offerings of Hill and Harriman shares, Reading, Canadian Pacific and Amalgamated Copper.

Talk of private settlements was heard after the close of the exchange. Bankers and brokers were busy until late in the night issuing calls for extra margins and exchanging cables with foreign correspondents.

U. S. Has Plenty Gold.

WASHINGTON, July 28.—With a billion and nearly three hundred million dollars in gold coin and bullion stored in treasury vaults, and about $600,000,000 more of coin in circulation, treasury officials said tonight that the United States had no cause for alarm over the tremendous shipments of gold from New York to war-clouded Europe.

Secretary McAdoo explained that the country never was in better position to send some of its millions abroad, and declared there was nothing to fear from the drain to meet European demands.

It was pointed out, also, that, while Europe just now was draining upon America's gold supply, it would be only a short time before the money would be coming back to pay for the vast quantities of food and supplies this country would be called upon to ship across the water.

Of the $1,286,216,783 in the treasury at the close of business yesterday, $495,411,806 was in the Denver mint, $318,940,829 in the Philadelphia subtreasury and mint, $241,404,904 in the San Francisco subtreasury and mint, $75,731,648 in New York, $73,903,627 in Chicago, $35,260,347 in St. Louis, with the balance scattered at 11 other points throughout the country, including Washington, Boston, Baltimore, Cincinnati, New Orleans and Seattle.

EUROPE DRAWING ON U.S. FOR GOLD

Total of $105,000,000 Has Been Withdrawn Since First of Year

NEW YORK, July 28.—Further enormous drafts on this country's gold reserve, having their origin in the disturbed conditions abroad, added in no small degree to the alarm prevalent in the financial district today. Thus far this year total withdrawals aggregate about $105,000,000, which breaks all known records.

Engagements today amounted to $13,000,000, all but $3,500,000 going to London. The remainder was destined for Paris. The French market has been the largest purchaser of the yellow metal here, its total demands since January aggregating approximately $85,000,000. In fact, it was not until yesterday that London began pulling at this quarter, presumably because of the keen competition in its own market for the gold received weekly from South Africa.

There have been three distinct gold shipments since the year opened. The first began in January when some $20,000,000 was taken for Paris. In May began the second movement of about $40,000,000, the great bulk again helping to swell the contents of the vaults of the Bank of France and a part going to the Imperial Bank of Germany.

The third and present movement was initiated last week when the war clouds began to hover over eastern Europe. In five business days a total of $28,850,000 has been taken. The supply of gold bars of requisite fineness gave out today and recourse was had to eagles and double eagles.

EUROPE IS FACING SERIOUS SITUATION, SAY LONDON PAPERS

Italian Fleet Is Ordered to Assemble; No Trace of Servian Army

LONDON, July 29 (Wednesday).—A rumor was current last night that the German minister in Belgrade had been assassinated, but inquiry, however, disclosed that the minister had merely left Belgrade for Nish.

The London morning newspapers fully realize the gravity of the menace threatening Europe.

Editorially, they admit that Austria is justified in chastising Servia, but they argue that any attempt to destroy Servia's foreign rights would plunge all of Europe into war.

The Daily Mail thinks that unless the war is localized, Europe is faced with the greatest catastrophe in its history. The Daily Telegraph considers that the German emperor holds the fate of Europe in the hollow of his hands.

"We have before us," says the Daily Telegraph, "the appalling spectacle of a first-class power rushing to arms and Europe convulsed and sick with anxiety and fear watching impotently the conflict she will be unable to control."

What Is Object of War?

The Morning Post, in a pessimistic vein, asks:

"If Austria does not want to annex Servian territory, what is the political purpose of her war? There must be some other purposes than are given.

"It seems that Austria is deliberately challenging with the approval of Germany. It is a struggle between the triple alliance and the triple entente, and it seems difficult to believe which will be the greater misfortune—Europe's acceptance of the challenge, which would be followed by a great war, or nonacceptance and the consequent domination of the triple alliance."

All the newspapers express the fervent hope that diplomatic negotiations at St. Petersburg will stand in averting a terrible conflict.

No Trace Servian Army.

LONDON, July 29—(Wednesday).—The correspondent of the Daily Chronicle at Semlin, telegraphing Tuesday, says there has been no active hostility between Austria and Servia beyond the exchange of shots on river patrols.

"The last of the foreign residents in Belgrade," the correspondent adds, "have just crossed to this side of the river on a steamer flying the Roumanian flag. Meanwhile, the Servian army gives no sign of life. No trace can be found of such an army. Searching parties have been unable to locate the elusive Serbs."

Italian Fleet to Assemble.

ROME, July 28.—It is reported that the first and second naval squadrons are forming to concentrate at Gaeta, 40 miles northwest of Naples.

Means War for Europe.

VIENNA, July 28.—The semiofficial Fremdenblatt says:

"War has been declared. To the people of Austria-Hungary there has been for days no doubt that it was inevitable, and popular sentiment has given emphatic expression to its ratification of the decisions of the government.

"War is also a fact for Europe. There is something else now apparent to Europe. It sees that Austria-Hungary is not only a political constitutionality, but also a national reality."

All the bourses in Austria-Hungary will reopen Thursday, after having been closed three days.

Black Sea Lights Out.

LONDON, July 29 (Wednesday).—The Times' Constantinople correspondent says Russia has ordered all lights along the Russian Black sea coast extinguished except the Chersonez lighthouse, near Sebastopol. The harbor of Sebastopol has been closed to all but Russian warships, the correspondent adds.

A dispatch of the Times from St. Petersburg says Russian statesmen are unanimous in the belief that Great Britain alone can save the situation.

A Durazzo dispatch to the Times says a report received in Durazzo from an Austrian-Lloyd source declares that the Austrians have blockaded the Montenegrin port of Antivari.

Food Prices Soar in Vienna; Market Men Are Mobbed

VIENNA, July 28.—There was an abnormal rise in the price of provisions today, which caused great indignation on the part of the public. Vegetables in many cases trebled in prices.

Feeling ran so high that in many instances stall keepers in the markets were mobbed or assaulted and the police had to be called out to restore order. The authorities declare that the sudden increase in the prices of provisions and vegetables is totally unwarranted.

Official arrangements have been made to take care of families of reservists called to the colors. In event a reservist is killed or reported missing an allowance of about 25 cents per day for each adult and 12½ cents a day for children will be continued for six months.

Reports that Emperor Francis Joseph has ordered the court removed from Ischl to the capital were met by the rejoinder that he must be at headquarters.

SOCIALISTS DENOUNCE 'BRUTAL AUSTRIAN POLICY'

BERLIN, July 28.—The ambassadors gathering at the weekly reception of the German foreign minister, Herr von Jagow, late this afternoon, were decidedly pessimistic, although most of the ambassadors had no knowledge of the Austrian declaration of war.

The British ambassador, Sir Edward Goschen, visited the imperial chancellor, Dr. von Bethmann Hollweg, as well as the foreign minister, and it was surmised he was pressing upon the German government the necessity of action to preserve peace.

Twenty-six Socialist mass meetings tonight in the workmen's quarters of the city were crowded to the doors and overflow meetings were held. A resolution was adopted denouncing "the brutal policy of Austria" and demanding the Governments to restrain their war fury.

Police were massed around the meeting places, but the meetings were orderly.

The police were able to prevent the crowds from forming processions, but they were fully occupied in keeping them away from that end of the avenue in which the Russian and French embassies are located.

NEW PROPOSALS MAY BE SUBMITTED TO TRAINMEN

CHICAGO, July 28—New proposals submitted by the federal mediators in an effort to avert a strike of 55,000 locomotive engineers and firemen on 98 western railroads were under consideration by both sides today.

"I am not at liberty to say what the proposals are," asserted Judge Martin A. Knapp, a member of the mediation board, "but we hope they will bring peace. The situation, however, still is grave."

Preachers Roughly Handled When They Try to Aid Chinese

WASHINGTON, July 28.—How six preachers were roughly handled by the police when they attempted to rescue some of the natives who were being dragged through the streets of a village near Chin Kiang, China, because they refused to worship idols, is told in a letter to the Seventh Day Adventists' headquarters here from Elder A. C. Porter, head of the Asiatic division of the church with headquarters in Shanghai. According to Elder Porter an official at Lei Tien who thought the troubles the people were having were due to their failure to worship idols and their ancestors, ordered a return to the ancient custom.

"There were about 20 members of the Baptist church at that place and they ignored the order," the letter says. "As the result of their failure idols were placed in the yards and tablets were hung on their walls.

"When the Christians persisted in refusing to worship according to the ancient custom they were roughly handled. All the men who were Christians were taken out, bound with ropes and led through the streets. Some of them fell down and were dragged for a considerable distance and suffered painful hurts."

The letter adds that a Chinese pastor who went to the rescue was severely cut on the head with a brick and six other preachers at a nearby Bible school who responded were also similarly handled.

European War Would Cost $51,000,000 a Day if Great Powers Should Go to Battle

From the Chicago Herald

If war between Austria and Servia actually comes, and if Germany, England, France, Russia, Italy, Austria and Roumania are drawn in, what will be the cost? Dr. Charles Richet, statistician of the University of Paris, has published detailed and elaborate estimates. From them he concludes that the daily expense of the actual campaign would be something like $54,000,000.

Dr. Richet basis his estimates on the assumption that roughly, 20,000,000 men would be called to arms, of whom at least half would be sent to the front. On this basis he works out the daily expenditures for the seven powers as follows—the figures being here rendered into dollars:

Provisioning of troops	$12,500,000
Feeding of horses	4,250,000
Pay	2,500,000
Wages, arsenals and harbors	2,000,000
Mobilization	1,000,000
Transport of foodstuffs, weapons, etc.	
Ammunition—	2,000,000
Infantry	1,250,000
Artillery	875,000
Ship artillery	4,750,000
Fitting out of army	500,000
Ambulance service	375,000
Movement of ships	10,000,000
Deficit in taxes	6,750,000
Support for population without means	2,000,000
Requisitions, damage to towns, bridges, etc.	
Total	$54,125,000

If such a war lasted only as long as the brief Franco-Prussian conflict of 1870 the outlay on this basis would exceed $5,000,000,000, irrespective of war indemnities.

flame of its hatred for myself and my house has blazed always higher. The design to tear from us by force inseparable portions of Austria-Hungary has been manifested with ever-lessening disguise."

Criminal Propaganda.

The manifesto then dwells on the criminal propaganda which has extended over the frontier, aiming at the destruction of the foundations of order and loyalty in the southeastern part of the monarchy and the leading astray of growing youth and inciting it to deeds of madness and high treason."

It continues: "A series of murderous attacks in an organized and well-carried-out conspiracy, whose fruitful success wounded me and my loyal people to the heart, forms the visible and bloody track of those secret machinations which were operated direct in Servia."

Declaring that a stop must be put to these intolerable provocations, the honor and dignity of the monarchy protected and its political, military and economic developments guarded from continuous shocks, he says:

Reason for Force of Arms.

"In vain did my government make a last attempt to induce Servia to desist. Servia rejected the just and moderate demands of my government and refused to confirm to the obligations following the natural foundations for peace in the life of peoples and states. I must, therefore, proceed to force of arms to secure those indispensable pledges which alone can insure tranquillity to new states within and lasting peace without.

"In this solemn hour, I am fully conscious of the whole significance of my resolve and my responsibility before the Almighty.

"I have examined and weighed everything and with my conscience I set out on the path that duty points. I trust in my people, who, throughout every storm, have always been prepared for the severest sacrifices for the honor, greatness and might of the fatherland.

"I trust in Austria-Hungary's brave and devoted forces and in the Almighty to give victory to my arms."

ENGLISH TRADE BOARD REACHES CANADIAN SOIL

ST. JOHNS, N. F., July 28.—The royal commission, which is touring the British overseas possessions inquiring into natural resources, business and manufactures, with a view to developing international trade, arrived today on board the Canadian steamer Earl Grey. Sir Alfred Bateman is acting chairman of the committee.

The automatic telephone exchange erected by the United River Plate Telephone company, in Cordoba, Argentine, has just been opened. This is the first automatic telephone exchange in South America.

RUSSIA CALLS ON PEOPLE TO RETAIN FORBEARANCE

ST. PETERSBURG, July 28.—The Russian government tonight issued the following official communication:

"Numerous patriotic demonstrations of the last few days in St. Petersburg and other cities prove that the firm policy of Russia finds a sympathetic echo among all classes of the population.

"The government hopes, nevertheless, that the expression of feeling of the people will not be tinged with enmity against the powers with whom Russia is at peace and with whom she wishes to remain at peace.

"While the government gathers strength from this wave of popular feeling, and expects its subjects to retain their reticence and tranquility it rests confidently on the guardianship of the dignity and the interests of Russia."

AMERICAN PEACE DELEGATES ISSUE CALL FOR MEETING

REPUBLICANS WILL NOT FILIBUSTER ON TRUST BILLS

WASHINGTON, July 28.—Senate Republicans in conference today decided not to filibuster against the trust bills. They are opposed to them and will say so in speeches, but their main purpose is to bring about adjournment as soon as possible. When the senate convened today discussion of the trade commission bill was resumed.

FIREMAN OVERCOME BY HEAT IN HIS CAB AT TULSA, OKLAHOMA

Maximum temperature in Colorado Springs yesterday, 73.

KANSAS CITY, July 28.—High temperatures and excessive humidity continued in Kansas, Oklahoma and northwest Missouri today. New records in temperature were reported, but prostrations were frequent.

Bartlesville, Okla., had the hottest day of the season, the mercury reaching 108. At Manhattan, Kan., a temperature of 103 was followed late today by two inches of rain. The rain belt was only about two miles wide, however.

At Emporia, Kan., the temperature was 100.

At Tulsa, Okla., which reported 108, A. C. Dickinson, a fireman, was overcome in the cab of his engine when the train was pulling into the city.

The maximum temperature in Kansas City was only 86, but there were two prostrations.

California Is Charming Now

Along the sea salt breezes from the Pacific keep the cities cool and delightful. Surf bathing, boating, deep sea fishing, short water trips, are always attractive to persons from inland.

The resorts in the Sierras, Yosemite and Northern California are especially attractive in July, as there is little rainfall now. Splendid highways everywhere offer opportunity for driving, motoring and horseback riding.

You can spend a few weeks there at little cost. Summer tourist tickets on sale every day during the summer.

A CRIME AGAINST HUMANITY

IT WOULD be hard to imagine a more utterly wanton crime against humanity than the official declaration of war which locks Austria-Hungary and Servia in deadly combat, and in all probability will eventually involve Russia and Germany, and perhaps Great Britain, France and Italy. Even if the Servian government is guilty of all the wrongs charged against it by the Austrians, the fact cannot for an instant justify this universal holocaust.

The issues involved are relatively trivial. The Serbs belong to the Slavonic race and are, of course, anxious to unite with them all peoples of kindred blood. In the southern provinces of Austria-Hungary, across the Danube, which forms the boundary between the two countries, lives a large Slavonic population which is racially in sympathy with the Serbs. Throughout the entire Balkan region race feeling runs high, and it is not surprising that the agitation is constant and often extremely bitter.

Neither is it surprising that the Austro-Hungarian government should resent efforts to alienate its Slav subjects. But this certainly is not a sufficient reason for the summary measures adopted in this case.

If the war could be confined to the two nations immediately involved the outlook would be less serious. There would be a brief campaign in which Servia would be overwhelmed by superior force, and probably, in the end, annexed as an Austro-Hungarian province a fate similar to that of Bosnia and Herzegovina a few years ago. But it is hardly to be expected that this procedure would be tolerated by Russia, whose policy aims eventually at the absorption of all Slav peoples and nations in southeastern Europe. The logical conclusion of the Austrian program would be a severe blow to Russian prestige and interests. Consequently, there is no doubt as to what Russia wants to do.

* * * * *

But Germany stands in the way. United with Austria-Hungary and Italy in the Triple Alliance, Germany is pledged to support either of them in case of war with two other nations. So long as the trouble is limited to Austria and Servia, Germany need not intervene; but if Russia also attacks Austria, Germany must come to the aid of her ally.

But the complications do not end here. Russia and France are united in the Dual Alliance, so if Russia attacks Austria, and Germany attacks Russia, France must almost certainly come to Russia's relief.

Great Britain's position is less involved. The Triple Entente, or agreement between Great Britain, France and Russia, is not as binding as a formal alliance, and does not obligate England to go to war to aid either of the other nations. But with all of the other great powers locked in a death struggle it is hard to see how Great Britain could keep out of it and this is even truer of Italy, if both of its allies go to war.

* * * * *

The possibilities of such a conflict are beyond the grasp of the imagination. If it involves all six nations, or even if it goes no further than to involve Russia and Germany, its cost in human life and treasure will make it easily the greatest war in history. This is inevitable, for although it is not liable to last as long as past wars, it will bring more men into the field and employ more effective methods of destruction.

In the Napoleonic wars of a century ago, and even in our own Civil war fifty years ago, the business of killing men was more primitive. The old-fashioned musket shot a heavy lead bullet which was ineffective at a range greater than two or three hundred yards. The modern high-power rifle possesses deadly accuracy at a mile. Machine guns, steel-jacketed bullets, high-power explosives, aeroplanes, submarines, dreadnoughts and a dozen other modern inventions have added to the horrors of war - though their effect will be to make wars briefer by the very completeness of the destruction.

At the same time these developments have tremendously increased the cost, and even a thirty-day campaign on the scale of the one now beginning may easily involve an expense greater than an entire year of our Civil war. Dr. Charles Richet, statistician of the University of Paris, has compiled an estimate based on the assumption that the war will involve the six nations. He assumes that 20,000,000 men would be under arms, of whom at least half would be sent to the front, and on this basis the cost would be $54,000,000 a day. If the war lasted as long as the Franco-Prussian war of 1870, or seven months, the outlay would be more than five billion dollars, irrespective of war indemnities. This is nearly five times the national debt of the United States, more than the national debt of Great Britain, and almost as much as that of France, which is larger than that of any other nation. When we remember that nearly every nation in Europe is on the verge of bankruptcy, it is nothing less than stupefying to see them facing destruction in an unnecessary war.

THE CAILLAUX VERDICT

A FEW years ago when the wretched Thaw case was dragging its weary length through the New York courts, the European press indulged in no end of sarcastic comment on the always touchy to Americans subject of our judicial procedure. Such a hideous travesty on justice would be impossible in Europe, they said. And Americans took their medicine with the best grace possible. They knew that their humiliation was deserved, and that explanations and excuses would be futile.

It is axiomatic that English jurisprudence is a model for the world. Less is known in this country of the procedure in continental courts, but at any rate their standards have been considered higher than ours. But now comes a French court, in a case which has attracted world-wide attention, with a verdict as lamentably subversive of justice as anything known in America before or since the Thaw trial.

The wife of a former French premier deliberately shot dead the editor of the Figaro, the leading Parisian political journal. She did it to avenge attacks made by the journalist on her husband. The trial, which lasted for nine days ending yesterday, has been a farcical proceeding from the beginning, a conglomeration of theatricalism, political chicanery, domestic scandal and several et ceteras. And it ends in a verdict of "not guilty."

Of course the case was not tried on its merits. The defense had only to hint that the murdered editor was engaged in treasonable negotiations for the sale of state secrets to a foreign government, and presto! public feeling flamed up and the safety of his assassin was secure. Doubtless everybody is satisfied, except the friends of Calmette, but it will be a long time before French aspersions on the American courts will be seriously accepted in this country.

THE MILLENNIUM.

To the Editor of The Gazette:

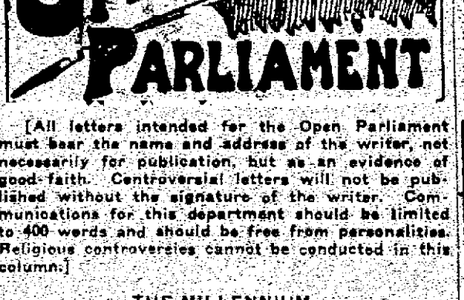

Some forty years ago an old lecturer exhibited maps and charts in the Universalist church at Dayton, O. He proved by these charts and quotations from the Bible the history of the world up to that time and its future history—from the books of Daniel, Revelation and various other scriptural records. The winding up of things before the Millennium, proved by these charts and records was that the whole world would be at war, nation against nation and brother against brother. Civil wars between labor and capital would take place all over the world, and there would be no peace anywhere until Christ came to earth again, at the Millennium.

I was much impressed with the earnestness and eloquence of this old man. It looks now as if there was something in this prophecy. England and Ireland are on the verge of civil war. Russia, Germany, England, Servia and other foreign countries are about to fight each other. There is internal strife, besides, in all these countries, including America, and downtrodden people are ready to fight their own governments. Mexico is not yet pacified, and there is prospect that the United States will yet have to fight down there. In fact, it looks now as if nearly every nation on earth will soon be engaged in war, internal and foreign, or both.

The writer is no pessimist, but is the prophesied Millennium near?

EMOTIONAL ATMOSPHERE OF CAILLAUX TRIAL.

From the Philadelphia Public Ledger.

The emotional atmosphere surcharging the court room, and the personal element injected into the Caillaux trial, are almost incomprehensible to one familiar with the ordinary routine of juridical procedure in this country. M. Caillaux and his divorced wife air the details of their marital misunderstanding as though in the seclusion of a private interview, and not as though they were talking at each other over the heads of an audience that interpolates audible comments, of approval or disfavor, hisses and groans and cheers, with only the mildest reproof from the presiding judge.

The trial, which resembles nothing so strongly as the trial of the Knave of Hearts, which Alice witnessed in "Through the Looking Glass," might fairly provoke the amusement of those who read the published accounts were not the issue so serious. As in the Dreyfus case, it is the French republic itself that is on trial in the person of the prisoner arraigned. It is to be seen whether sentimentalism or the truth shall prevail, whether because the defendant is a beautiful woman the eyes of justice are to be unbandaged to her comeliness. Through all the proceedings runs the exotic code of manners, of misplaced chivalry, of supersensitive honor, with the constant disposition to consider personal feelings as more important than anything else. The flawless courtesies that mean nothing, the histrionic posturing and gesturing, the impassioned appeals to the auditors, the tears and smelling salts, the rapier thrusts of repartee in the hope of scoring a hit—what are all these but the elaborate mummery intended to obscure the essential points at issue.

PREVENTION OF HOUSEHOLD WASTE.

From the Christian Science Monitor.

There is material for much and thoughtful reflection on the part of heads of families in an article published in the household department of this newspaper recently on the prevention of waste in the home. It was, in fact, a careful and thorough analysis of conditions in the average family that make for the depletion of its income without satisfactory compensation. Waste is even worse than extravagance. There is some returns for overexpenditure; there is no return for waste. Extravagance is more easily checked and stopped than waste, because it manifests itself more conspicuously; waste is in the nature of a drain, silent and secret, that exhausts the family income, generally leaving no other trace.

It can only be checked and stopped, as a rule, by the housewife, and by her only when she is skilled in her vocation. It cannot be either checked or stopped until it is detected, and it can be detected only by housewives who are proficient. It goes on day in and day out, year in and year out, under the eyes of housekeepers who have not naturally a talent for, or who have not been trained in, household management. "I insist," says the writer of the article referred to, "that to live well, easily and happily, the housewife herself must be trained. Even though she does not spend much time in the kitchen, she must know how to direct its management must know the theory as well as the practice of housekeeping."

The plea of this writer, and of many others in our time, is for the training of young women in housewifery. Efficient and economical housekeeping means so much for the husband and the family as to represent the difference between constant living from hand to mouth and possible independence. It is important that there shall be schools in which boys are taught trades that they may later be able to earn wages for the support of families. It is of equal importance that girls shall be taught how to use the allowances that may come to them as wives so that their husbands may be helped rather than handicapped.

SIMPLY GRAND.

From the Alamosa (Colo.) Herald.

Two young gentlemen by the names of Olsen and Gromberg, from Chicago, but who have been spending the summer at Mosca, were in Alamosa yesterday, and we had the pleasure of listening to their execution of music on the piano at Rector Harrison's home. The music was simply grand. They took you with them down the line of the white ivory keys, then rushed you back again, turned you around, and you stood awed as they touched the black keys and music came forth. Truly these two young men can well adhere to the proverb that "music hath charms to soothe the savage breast."

A Case for the Jury

BY RUTH CAMERON

If a merchant should insist upon presenting you with an article which you wanted to buy from him, and then some time later should present you with a bill charging a larger sum than you originally offered him, you would be pretty indignant, wouldn't you?

You say you cannot imagine a merchant doing such a thing.

No, neither can I. Yet that is practically a description of the trick which friends often play upon each other.

The other day I heard a woman complaining bitterly because a friend of hers was not willing to take her little daughter into her home while she was absent on a two weeks' trip.

"Oh, yes, Louise said she would do it," she complained, "but I could see she didn't want to, and I certainly shan't force her to. I wouldn't have Dorothy stay where she wasn't wanted for anything. But I must say I never saw such ingratitude. Why, when she was married, I marked half of her linen for her. I did two tablecloths and two dozen napkins, and I don't know how many towels. I worked half one summer on them. Well, there's no use expecting gratitude in this world."

Now if I had not heard the other side of the case I might have been horrified by the ingratitude displayed, but, as it happened, I had heard the defendant's case, and here it is.

The plaintiff offered to mark the linen in question. The defendant thanked her but said she wished she could let her pay for the work. The plaintiff absolutely refused, and the defendant reluctantly accepted the favor. A few months later, however, the plaintiff demanded as pay that the defendant should take charge of her little girl for two weeks.

Now if the little girl had been an ordinary child, the defendant might have been willing, but Dorothy is an extremely delicate child, always subject to sudden upsets, and the responsibility appalled the defendant who is not used to children. And it was because she could not hide this feeling that the plaintiff haughtily withdrew her request and began to inveigh about the uselessness of expecting gratitude in this world.

Now if we are cold blooded enough to translate the two favors into cold cash, we find that the embroidery could have been hired for six or seven dollars, whereas board and a nursemaid's services for the child for two weeks would certainly have cost $15 to $18.

Moreover, the defendant would far rather have paid outright for the work at double its value than to have accepted the responsibility of caring for a sickly child.

Should she not have the right to choose how she should repay without receiving the stigma of ingratitude?

And now that both sides of the case have been presented I leave it to you, the jury, to decide—was the plaintiff unjust or the defendant ungrateful?

PONDEROUS PERSONAGES ROBESPIERRE

Robespierre was a French lawyer with exemplary habits, a good reputation and a long, slanting forehead, who lived in the provinces and got into politics just before the French revolution.

Robespierre was noted as a debater and writer in his native province and was a devoted patriot, having only the good of his country at heart. This teaches us that men with narrow, slanting brows, insufficiently equipped on the inside, should not be allowed to monkey with patriotism or other dangerous explosives. For Robespierre made his patriotism more fatal than tyranny had ever been.

Those were very troubled days in France and after the king had been safely filed away in prison and most of the nobility had been chased over the border, the common people began to discuss the best way of ruling themselves. There were a great many varying opinions, supported by different parties, and the common people

When hand work with the executioner's ax became too slow the guillotine was invented.

in their ignorance could only follow the example of the educated and ruling class which had just been eradicated. One after another the various contending parties butchered each other and when hand work with the executioner's ax became too slow and tedious the guillotine was invented.

Gradually the contending parties went out of business until only Robespierre and his associates were left. In his younger days Robespierre had resigned from the bench rather than sentence a criminal to death, but now his patriotism persuaded him that the fewer politicians there were in France the better for the state. He therefore increased and improved the Reign of Terror until the only way a Frenchman could prove his loyalty was by denouncing some other citizen, and Paris became boggy with blood.

Robespierre went on executing people from the purest patriotic motives until it became evident to all that if he continued France would become purified but unpopulated. He was therefore denounced in the convention and executed himself—but not until he had given the French revolution a record for barbarity which will stain it forever.

Robespierre was like many another good but chicken-headed man, who is induced from motives of purest honor to jump in on the wrong side and do the dirty work for the whole villainous movement. If he had not been so incorruptible he would have been bounced long before and the guillotine would have gone out of business a year sooner.

UNORDERED PACKAGES DO NOT HAVE TO BE ACCEPTED

WASHINGTON, July 28.—Postmasters will not be permitted to urge persons to accept C. O. D. and insured parcels addressed to them which they have not ordered. Neither will they be permitted to act as agents of the senders of such packages in further attempting to coerce the addressees to accept delivery or to effect a sale of the parcels' contents to other persons.

An order to this effect was issued by the postoffice department today. The action was taken as the result of reports to the department which indicated, it is asserted, that parcels are being sent to persons who have not ordered goods evidently to effect a sale or to make collections. The department explains that persons may accept or refuse such parcels as they chose.

BRIGHT'S DISEASE

Some have opinions about the seriousness of Bright's disease formed from knowing of one or two cases in which the patients went down rapidly. They think of the disease as necessarily fatal. Some have opinions based upon one or more cases of mild, slowly progressive Bright's disease; the persons never seem to be very sick and life is prolonged for many years. They think the disease of no consequence.

The men who carefully analyse vital statistics are of the opinion that Bright's disease is largely responsible for the increasing death rate of people over 50. The fact is that a large proportion of the people past 50 have some disease in their kidneys. They are crippled, but not sick. One can have a good deal of Bright's disease without being sick—simply crippled. Osler once compared a man with a little Bright's disease to a man with a few gray hairs.

—

In the insurance medicine column of the New York Medical Record there is a discussion of the weight to be given hyaline casts in the urine.

The kidney is a mass of tubes. These tubes are microscopic in size. On the outside of the tubes are the thin walled blood vessels. The cells of the tubes take the constituents of the urine from the blood and pass them into the tubes through which the product—urine flows to the pelvis of the kidney.

Sometimes albumen escapes from the blood through the cells into the tube, where it coagulates, forming casts. These are washed away with the urine, and careful microscopic examination shows them as hyaline casts. Of course, urine which contains hyaline casts has come from a crippled kidney. How badly crippled?

—

Recently a large insurance risk was rewritten by a number of companies. Urine examination showed hyaline casts. Portions of the risk were offered to 19 companies. Twelve accepted the man, and one "postponed" passing on the risk [illegible] the companies thought a few hyaline casts of no significance. One was willing to accept a risk with a few hyaline casts, if there was no blemish anywhere else.

The postponing company made six examinations. Hyaline casts were the only wrong element found in three. One contained granular casts also. Two contained a trace of blood. Indican was abundant in all five examined. One specimen was unsuited for examination.

—

The insurance people are divided as to whether persons with no abnormality except hyaline casts should be rejected. They are generally forced to decide an important question in one examination.

The family physician is in a better position. He can make repeated examinations. But, in nearly all cases, he comes back to his patient with the following advice:

"You have a crippled kidney. Whether or not it will ever seriously embarrass you is up to you. You drink, or overeat, or overwork, or overworry, or something else. Stop the abuse and live long. Continue it and pay the fiddler."

ONLY ONE CURE FOR PILES

E. J. L. writes: "Can piles be cured without resorting to an operation? I am a bookkeeper by occupation, but I have been out of work for some time and cannot afford the expense. I have suffered, too, from constipation, and I have been told that piles are the indirect cause of that ailment. You, of course, have heard and know about the rubber dilators. Would you advise me to try them, or is the severe knife operation the only real cure? Will piles affect my general health if I do not have them removed?"

REPLY.

1. Cured, no; relieved, yes.

2. Dilators are of service in many cases of constipation. They are of no service in more cases.

3. Bleeding piles, if the bleeding is considerable, undermine the health.

Piles induce constipation; constipation induces piles—a vicious circle. If your piles inconvenience you, go to a hospital and have an operation. If you are without funds there will be no cost. If you are not greatly discommoded, regulate your bowels through your eating, and do nothing more than that.

MAKES WATER HARMLESS

H. A. A. writes: "In my travels around the world the question of drinking water was one of much importance to me in the different countries. In your issue of the 12th inst. I note you state a solution of chloride of lime to a gallon pail of water will destroy all germs and make the water safe to drink for a number of months, and not be injurious to the health?"

REPLY.

Yes. However, there is nothing to be gained from transporting drinking water. Have the lime put up in powders, to be kept in a tin box. Use one powder in three gallons of water, or in a solution of which one teaspoonful will purify three gallons of water.

ALBUMINURIA

J. L. T. writes: "Recently I made application for a position, but was rejected because the doctor found that I had albumen in my urine. What is this a sign of? Will it result in any particular disease? What would you advise me to do? I am 16."

REPLY.

1. It is a sign of Bright's disease among other things. In growing youths it may be present without meaning much.

2. Go to your physician for a careful examination. He will map out a way to live for you. Follow it.

FEDERALS TO MOVE AGAINST ZAPATISTS

WASHINGTON, July 28.—Brigadier General Funston reported today that the Mexican federal forces in Mexico City had taken the offensive against the Zapatistas and driven them from nearby towns. He says there are 30,000 federals in the Mexican capital.

Constitutionalist troops have become very active along the railroad between Soledad and Orizaba, but are acting in independent bands. Ricardo Lopez at the head of a band of some 2[illegible] peons is said to be laying waste to the section south of Vera Cruz, towards the sea coast.

COLORADO CITY WET TWO YEARS AFTER VOTED DRY

Judge Little Makes Ruling in Suit Involving Rent for Building Used as Liquor House

That Colorado City did not become "dry" territory with the election of April 1911, although the courts afterward held that the prohibition forces won by two votes at that election but became dry only when the state supreme court so ruled nearly two years later is the holding of District Judge John E Little The ruling was made in the suit of Adolph Fehringer vs the Wagner-Stockbridge Trading company He first announced the holding about two weeks ago, when the point was expressly argued and repeated yesterday, when the case came up for trial.

Fehringer is suing the Wagner-Stockbridge Trading company for $400 for rent on certain property in Colorado City for the months of April, May, June and July, 1913 The property, which formerly belonged to the Wagner-Stockbridge Mercantile & Drug company, was leased September 1, 1911, for a period of five years, to Manuel Finkelstein to be used as a wholesale liquor house Finkelstein afterward formed the Wagner-Stockbridge Trading company. Before that, in April 1911, Colorado City had voted on the local option question and, apparently, had remained "wet" territory The election was afterward contested, and the courts held that prohibition had won by two votes but this had not been determined when the lease was signed When Colorado City was declared dry, Finkelstein moved his stock to Colorado Springs, and refused to pay rent on the Colorado City property

Fehringer sued the trading company under the lease, and the defense was made that Colorado City was as a result of the election in the preceding April officially dry territory when the lease was signed that the lease was therefore a contract in violation of law and unenforceable and that the company was consequently released from payment of the rent Judge Little held that the lease was not a contract in violation of law, and in doing so held that Colorado City was not dry territory at the time the lease was signed, that it did not become dry until the supreme court so ruled, and that the decision of the court put the law which was adopted at the election in April 1911 into effect, rather than that the law went into effect at the date of the election

Testimony in the suit was completed yesterday The case will be argued this morning, and will go to the jury probably before noon

METHODIST PICNIC TO BE CELEBRATED TOMORROW

Several Hundred Expected to Attend Celebration to Be Held in Stratton Park

All the Methodists of the Pikes Peak region will meet tomorrow morning at 9 o'clock at Stratton park to celebrate "Methodist day" in one of the largest picnic parties the park has ever held Special cars will be stationed at different points throughout the city to accommodate the various delegations leaving for the picnic and a large number of people are expected, as all the Methodist churches and Sunday schools of the city will send delegations

The athletic events will be held in the morning One of the features of the picnic will be the baseball game between the preachers and laymen The following program has been arranged

FIRE CHIEF PLUNGES THROUGH STORE WINDOW

Auto Skids in Turning Corner and Comes to Stop Inside Restaurant

A big red roadster driven by Fire Chief P D McCartin crashed into the front of the Cascade restaurant on Huerfano street west of Cascade avenue about 6 o'clock yesterday morning The front of the restaurant was pushed in and the radiator of the automobile was broken but McCartin came out of the accident without injury A fire alarm had been sent in from the west side, and McCartin was racing to the fire when the accident happened He drove down Cascade avenue and as he swung into Huerfano street the machine skidded across the wet pavement Fearing that the car would overturn as it went sidewise against the curb McCartin threw the front wheels in the direction it was skidding and the machine, although its brakes were set slid across the street over the curb, and into the front of the restaurant

The falling of one of the feed wires of the Colorado Springs Light Heat and Power company in the alley between Colorado and Grant avenues and Thirteenth and Fourteenth streets caused the alarm to be sent in

REQUEST ENVELOPES MUST BEAR NAME AND ADDRESS

Postoffice Department Announces New Rule to Facilitate Handling of Mail Matter

Special request envelopes in future will be required to have a specific address consisting of a house and street number printed on their face according to the postoffice authorities here who have just received an order from the postoffice department in Washington to that effect There will be no exception in favor of prominent people At present there is a great deal of indefinite addressing that is causing the postoffice departments throughout the country a great deal of trouble and they hope in this to do away with the practice The only exception made in this rule will be when buildings like the Hagerman building, Mining Exchange building or Exchange bank building are printed on the envelopes, and are sufficiently known to cause no trouble

A further order received by the postoffice here deals with the number of days to be printed on the envelopes No special request envelope will be returned to the sender within three days nor after a longer period than 30 These envelopes must be returned to the sender after the period stated on the envelope irrespective of any order issued by the recipient. If the postoffice is requested to hold Mr Smith's mail and a special request letter comes and Mr. Smith does not arrive, the letter must be returned to the sender after the period designated on the envelope.

More Inquiries About Colorado Land Sale

More than 11 states were represented in the letters of inquiry received by the state land board offices yesterday as a result of the advertising campaign started to attract settlers to El Paso county One letter came all the way from the Canal Zone asking for information concerning the sale There have been many inquiries about improved lands from people who had read of the state land sale in the papers This feature of the sale will be most valuable to Colorado, according to Prof H M Cottrell, agricultural commissioner for the Rock Island railroad, who is in charge of the offices here.

News of the Courts

Suit for $300 damages for alleged failure to deliver a message to him has been filed in Justice Dunnington's court by W. E. Moyer against the Western Union Telegraph company. Moyer, who says that he was staying 20 miles east of Colorado Springs at the time, says that he was plaintiff in a suit in Roswell, N. M., involving about $1,500. He claims that four telegrams received for him by his attorney here, it appeared necessary for him to go to Roswell in the interests of this suit, and he came to this city, went to the office of the telegraph company, sent a message to Roswell saying that he was coming, and left on the next train. At the time he made this trip to the office, Moyer claims, there was a telegram there for him saying that he did not need to come as the trial had been continued over to the next term of court. He claims that through the fault of the company the name on this message had been changed from "Moyer" to "Moore," and that the office address of his attorney also had been changed. For this reason, he alleges, the telegram was not delivered to his attorney, nor given to him, and as a result he had his trip to New Mexico and back for nothing. The case will be tried August 15.

Police Magistrate Manning yesterday morning fined William Metz and L. C. Curtis $5 and costs each for violating the automobile light ordinance, and E. E. Stainsky $10 for violating the dog ordinance. The fine imposed on Metz was suspended.

CALL ISSUED FOR HIGHWAY MEETING

Effort Being Made to Have Big Representation at Sessions Friday

In preparation for the Colorado-to-the-Gulf Highway association meeting to be held here Friday, A. W. Henderson, secretary of the Mountain division, has sent out the following form letter to all the county commissioners, mayors, commercial clubs and prominent people on the highway route, telling them of the meeting and work of the association:

"The meeting will be called to order at the rooms of the Colorado Springs Chamber of Commerce at 10 a. m., and morning and afternoon sessions will be devoted to the transaction of business, election of officers, and discussion and decision on plans for the further development and advertisement of this highway.

"Saturday, August 1, the delegates will make a trip of inspection over the Colorado-Springs-Pueblo section of the Colorado-to-the-Gulf highway, and will also ride over a portion of the Colorado Springs-Canon City State highway, built by convict labor. They will be given an opportunity to see something of the road development in Pueblo and El Paso counties. The Colorado-to-the-Gulf highway is rapidly assuming national importance. It is recognized as the great artery of travel between Texas and the south west and the mountains of Colorado. Its development within the last year, du in large measure to the activity of this association, has been one of the notable features of western accomplishment.

"The work of this association will not be completed until every mile of the road from Pikes Peak to the Gulf of Mexico is improved. Therefore, this annual meeting is important. Your county, your town, your commercial association, owes it to itself to be represented at this meeting. Will you not see that a number of representative men from your community come to Colorado Springs to attend the meeting and help make the plans that will mean even greater development for this highway?

"It is particularly necessary that Colorado and New Mexico show their interest in this road. The Texas counties have done great work, and we owe it to them, now that the convention is held in our division, to see that every county is well and ably represented.

"Very truly yours,

"A. W. HENDERSON,
"Secretary Mountain Division."

A big attendance is expected, as a large number of auaomobile touring parties are daily leaving Texas for Colorado Springs, according to J. L. Williams, president of the association, who has been spending the last few days here conferring with A. W. Henderson of the Chamber of Commerce. The Texans will all attend the meeting and are enthusiastic highway boosters, according to the president, and are anxious to return the call paid them by the Colorado people last year. All automobile parties of Texans are invited to join the runs Saturday.

MIDLAND BAND TO PLAY AT CHILDREN'S PAGEANT

Music Will be Appropriate to Scenes Enacted by 2,000 Kiddies at City Playgrounds

While more than 2,000 children are depicting the early periods of Colorado's history up to the time of its admission into the Union, next Saturday, in Monument Valley park, the Midland band will play appropriate music. The band will be at the park in the afternoon at 2 o'clock, and will add not a little to the effect of the pageant in the opinion of Supervisor Arthur Murray, Jr. The program has not been made out yet, but it is Murray's idea to have the music appropriate to the different scenes.

"After the pageant in the afternoon games and races for boys and girls of all ages will be held and badges will be awarded to the winners of the various events. It is aimed to make the event an all-day proposition. In the morning there will be baseball games and a picnic lunch, while the early part of the afternoon will be devoted to the pageant. During the latter part of the afternoon sports of all kinds will be held.

Dinner Tonight for Methodist Bishops

A complimentary dinner, at which Bishop Francis J. McConnell of Denver and Bishop Edwin H. Hughes of San Francisco, the two youngest bishops in the Methodist church, will speak, will be given at the First Methodist church this evening. The dinner will be for all the Methodist men of the three churches—the First Methodist church, the Asbury Methodist church, and St. Pauls Methodist church—and will begin at 6:15 o'clock. About 300 men, according to estimates last night, are expected to attend.

The dinner will be given in the interests of Denver university, but neither money nor pledges will be asked. The object will be simply to tell the men about the university and about Christian colleges in general. Both McConnell and Hughes have been heads of colleges during their work.

There will be no charge for the dinner for resident Methodist men, but tickets will be necessary for admission. These may be secured from Clare Thomas, Judge W. S. Morris, O. E. Collins, T. P. Barber, Walter Manning, Dr. W. W. Flora, John Long, Clem Morris, Lewis Newsome, and City Clerk Charles Chapman.

Republicans Select Assembly Delegates

Republican caucuses were held yesterday afternoon from 4 to 7 o'clock in the various precincts in Colorado Springs, Colorado City, Manitou, Broadmoor, Ivywild and Roswell. There being no big fights on and consequently no definite factional lines drawn, little interest was manifested. Even the county central committee failed to meet last night to receive the lists. A meeting will be held possibly today, when the roll of the assembly will be made up.

What the Press Agents Say

BARNUM & BAILEY

"When a monkey sleeps he picks out the highest perch he can find," says Keeper John Patterson of the Barnum & Bailey menagerie. "When the only home of the monkey was a forest, he lived always in deadly fear of the lion—a live monkey is the choicest kind of a meal for the king of beasts. Although the monkey is a rather wise soy, and knows that in a zoo the lions are securely caged, the fear of the lion is born in him, and this accounts for his finding as high a perch as he can to sleep on.

"The lioness when free from family cares, is prone to lie on its back, with its legs stretched up straight in the air and paws pendant. The lion, when the excitement of the day is gone, screeches itself out flatly on its side with paws turned in and twitches and throbs during its slumber a good deal like a dog. Gorillas and chimpanzees sleep with their hands over their heads. Bears, which have no fear, sleep in any position. Animals of a cunning or cowards nature, however, are always on the alert, even when asleep."

The menagerie department of the Barnum & Bailey show, which exhibits here Monday, it is said, has been greatly added to during the last winter.

SAVING OF YOUNG ANDERSON

The program at the Empress for today is replete with many good things. The feature picture, "Saving of Young Anderson," is a two-reel Reliance production of more than ordinary interest. Treating as it does police life in a large city, it is full of thrills and heart interest and teaches a lesson of life among the lowly, their trials and tribulations, their sorrows and joys, the hardships they endure through the mistakes of loved ones.

The Mutual Weekly is always interesting and instructive, showing many happenings both at home and abroad. "Izzy and the Diamond," one of the comedy series in which Izzy is the big favorite, one of the really funny and amusing as well as instructive series now being made in moving pictures, will be shown. Then, there's a Keystone comedy, "The Great Toe Mystery," with Mabel Normand, commonly termed Daredevil Mabel; Charles Chaplin and (Fatty) Roscoe Arbuckle.

Figures in Baseball War Threatened Over First Baseman Kraft of Newark

DAVID L. FULTZ.

BASEBALL(?) IN ENGLAND--SCORE 172-96 IN SECOND; GAME CALLED, PLAYERS ALL IN

By FRANK G. MENKE

NEW YORK, July 28.—They played a game of baseball over on those dear, old British Isles some weeks ago, with the following results:

Teams—	Innings: 1	2	Tot.
England	66	106	172
Wales	39	57	96

(Game called on account of the general weariness of the players after the second inning.)

Commenting on the attempt made by the Welsh gang to overcome a 133 run lead in their half of the second, one of the English newspapers said:

"The Welshmen never looked like making the 134 runs needed to win the game, but they tried hard. H. Evans of the Grango Gasworks, and E. Seer of the Phil Harriers, who was captain of the team, executed the most noble work, for they recorded 13 runs each, as the result of their labors, but the side was out in 57 runs."

As we understand the situation, Messrs. Evans and Seer messed up the opposing pitcher to such an extent that they were given the privilege of running around the bases 13 times each and that divers and sundry other of their teammates contributed the other 31 runs that were tallied during the final half inning of the pastime.

However, neither of the Welsh messrs. need get conceited about what they did. A few of their English opponents went them slightly better in the run making business. In the first inning L. Higgins made 15 runs and J. Barron 14, while in the second inning, Higgins contributed 25 runs and Watron aided his side by ambling around the bases 20 times.

One of our English brethren, who has been given the title of "baseball expert" by the editor-in-chief of the paper on which he works, wrote an article about baseball after the aforementioned game was over. If you don't believe that this fellow is an expert on baseball and knows all the in-and-outs of the said game, we submit evidence, the evidence being the article that he wrote in which he explained the game to those who didn't know much about it—and who perhaps don't much more now.

What He Says.

Here is the article in part:

"Baseball lacks the stately dignity of cricket. It is a strenuous and bustling, if not skillful game. It has many merits. It should appeal to a public whose ideas have been speeded up by professional football.

"The impression that this match conveyed was that a splendid eye is needed for success as a batsman. The bat, which is no more than three and a half inches wide, is held a right angles to the body, chest high."

Then the expert goes on to describe some of the rules of the game. Here is the description of one rule, but it must be one they connoted in England. No one seems to know anything about it here:

"A batter is allowed to miss only one ball which the umpire passes as a good one. On a second offense he is ruled out."

Can anyone imagine what would happen if some umpire tried to "rule out" Heinie Zimmerman after he had taken only two swipes at the ball?

"The greatest excitement develops," declares our English "expert," "when only two or three men remain not out, for then hard hitting and quick dashes to the home base become a necessity."

Our "expert" fosses bouquets at one of the English players named F. Moore who made "five hits for four each in the first inning." In other words, Mr. Moore seems to have poked out four circuit smashes.

If he did, we'll go our "expert" in one stanza, one farther in the bouquet idea. We'll heave a hot-house at Mr. Moore. He's got it coming if he did really execute these five homeruns.

"Smart" Fielding.

Continuing in his description, our "expert" assures the populace that:

"Smart fielding and accurate returns to the various basemen are important features, but as the ball is nearly always in the air the necessity for a well-cut and rolled field does not arise."

Judging from the number of runs made, it would be safe to assume that "the ball was nearly always in the air" and, no doubt, last seen when disappearing over the fence, in case they used fences in that game.

"An attractive feature of the game," we are told, "is that there is no waste of time. As each batsman makes his stroke and reaches first, second or home base, as the case may be, the next batter is ready to do his bowling."

Refreshments, in the form of tea, were served throughout the contest.

CANADIAN DAVIS CUP CAPTAIN THRILLS FANS AT WESTERN TOURNEY

R. B. Powell Wins Three Brilliant Matches During Day Marked by Hard-Fought Games

LAKE FOREST, Ill., July 28.—R. B. Powell, Canada's Davis cup captain, thrilled tennis fans at Lake Forest today by winning three matches in the western championship tournament. In the preliminary round he downed L. P. Brintwell of Chicago and Kansas City by the one-sided score of 6-0, 6-1, and with the same figures won from James Weber, a local schoolboy crack. It remained for Al Lindauer, a Chicago boy, to give the alien a battle. He won the first three games. Then Powell showed a flash of Davis cup form and won the match, 6-4, 6-0.

There were many hard-fought matches in the singles. R. E. Foster, an Evanston star, had a stiff struggle before he triumphed over H. M. Hess of St. Louis, 6-3, 7-9, 9-7. Peter Ball overcame W. U. Knight of Minneapolis by a score of 4-6, 8-6, 6-4, in the first round. Ball previously had a tough contest with W. E. Blatherwick of Iowa, holder of the North Dakota championship, but won 8-6, 0-6, 6-3. Ball learned his tennis in California and uses the coast "out serve."

Celebrities were mostly successful, but John C. Neely, a veteran, fell before Henry Roeder. Ralph Burdick had some trouble beating W. A. Hornell, another Californian, but won 6-4, 6-2, and then easily disposed of E. H. Smith of Texas.

In the women's singles Miss Carrie B. Neely was among the favorites who won. Miss Mary K. Browne of Los Angeles, the national champion, is to arrive tomorrow and Miss Gwendolyn Rees of Dallas, the western title holder, also is expected then. An interesting challenge round is expected if Miss Browne goes through the tournament.

In a match made thrilling by brilliant net work, C. N. Church and Dean Mather, the Princeton pair, beat J. J. Armstrong of St. Paul and Horrell, 6-1, 6-0, 6-1.

FEDS FIND SECOND TY COBB IN BENNY KAUFF OF INDIANAPOLIS TEAM

Is a Former Yank and Smashes Everything That Comes Anywhere Near Him

By FRANK G. MENKE

NEW YORK, July 28.—The Feds seem to have uncovered a sure enough "second Ty Cobb" in the person of Benny Kauff of the Indianapolis team. Kauff has been clubbing them out all season around the .400 mark, has been running bases with the daring and dash of the wonderful Georgian, can cover a marvelous amount of territory in the outfield and has an unerring arm.

Kauff so far hasn't shown any batting weakness. He hits everything that comes his way, and it matters not whether the slants that are thrown him are from the arms of Tom Seaton, Russell Ford, Otey Crandall or some of the recruit pitchers in the new league. Most of Kauff's hits have the same whistling force that made Wagner and Lajoie famous as sluggers, but he also is a wonderful man at laying down bunts and beating them out.

If Kauff, in his present form had been uncovered in the American or National league this year, his face would be peering forth from the sporting pages almost daily. But the Indianapolis star has the misfortune of being in a new league this year and his deeds are not being very widely heralded. But before another year rolls around, those who have been Kauff in most of his games, declare that even the most biased organized critic will have to admit that Kauff takes ranking with Cobb, Jackson and Speaker.

Was a Yank Once.

Kauff, by the way, was a member of the New York Yankees for a brief period in 1911. Even then he showed wonderful ability as a batter, but he lacked field experience, and Hal Chase, then manager of the club, turned him loose because he felt that he did not have time to develop him. The Yanks at that time were well fortified with fielders.

Kauff went to the New London, Conn., team in the Eastern association, and set it afire with his terrific hitting. He took part in 136 games, finishing the season with 176 hits for an average of .346. Many of those hits were for extra bases.

When the Feds were looking around for players early last winter one of their scouts was tipped off to Kauff and the demon slugger affixed his name to a contract.

Wagner's Long Drive.

Down in Hot Springs, Va., the natives still tell, with bated breath, of the terrific drive made by Honus Wagner of the Pirates, when he mixed up in a golfing game there during a recent visit.

Honus, so the story goes, had been coaxed out into the links and was shown the intricacies of the game. Honus went the rounds once or twice, but, because he was handicapped by the advice of the expert golfers, he never was able to get a full swing at the ball. However, after the game was over Honus remarked that he thought he could get more distance with a drive if allowed to follow his own ideas.

"That's a mistake," said one of the golfers. "In baseball the harder you hit a ball the farther it goes. But it's different in golf. It isn't strength that counts in the golfing game."

"Mebbe not, mebbe not," remarked Honus. "But I kind-a think I could shoot that little ball pretty far if I got a good swipe on it."

The argument carried over into the next day and it finally was decided to let Honus try at hitting the ball after his own ideas. So when the golfers got on a little hillside that overlooked the valley, Honus approached the tee for the experimental shot.

Honus teed up his ball with considerable sand underneath, stepped back a foot or two, grasped the club firmly in his huge paws and then made a mighty swing. The wood crashed full and fair against the ball, and away it shot like a rifle bullet. It cleared not only the valley, but the town on the other side of it, and when last seen the ball was still sailing upwards in the general direction of the sun.

"I kind-a thought I could do it," was Honus' only remark as he made his record drive.

The fans in Chicago who have remained loyal to the Cubs are now bemoaning the fact that Tinker and Evans are no longer in their midst. They feel that with these two stars back in the Cub infield the Cubs would have a mighty bright chance for the pennant.

CHICK EVANS FINALLY DEFEATS J. K. BOLE ON THE TWENTY-FIRST HOLE

Four of Sixteen Contests in Western Amateur Golf Play Go to Extra Holes

KENT COUNTRY CLUB, GRAND RAPIS, Mich., July 28.—Champions met champions in the first round of match play this afternoon for the Western amateur golf title and the result was that four of the 16 contests went to extra holes, nine of them was a memorable duel between Charles Evans, Jr., of Edgewater, Chicago, and J. K. Bole of Maryland club, Cleveland, which was won by Evans on the twenty-first hole.

George S. Lyon of Toronto, H. F. Sawyer of Wheaton, Chicago, and R. E. Hunter of Pasadena, were the other winners in overtime battles. In fact, only one player won his match easily. He was Albert Seckel of Riverside, who defeated F. R. Blossom of Hillsthian, 7 up and 6 to play. The weather was splendid and the course in good shape. No low medal scores were made, as most of the golfers played carefully, avoiding the spectacular attempts which marked the preliminary rounds.

MAURICE M'LOUGHLIN WINS LONGWOOD SINGLES; PELL AND BEHR TAKE DOUBLES

National Champion Forced to Top of His Game by R. Lindley Murray

BOSTON, July 28.—Finals in the Longwood singles and the eastern doubles championship tournament today brought out the finest tennis of the week. Maurice E. McLoughlin of San Francisco and T. R. Pell and Karl Behr of New York winning the two events.

R. Lindley Murray drove McLoughlin to the top of his game, and although the national champion won in straight sets, 6-3, 6-3, 9-7, the young player was twice within a point of capturing the third set.

Pell and Behr also scored a three-set victory over the former national champion, H. H. Hackett, and F. B. Alexander, as the result of Behr's brilliancy in the first set and Pell's steadiness in the other two, the scores being, 6-3, 6-4, 7-5.

McLoughlin will remain over tomorrow to play William M. Johnston, also of San Francisco, in the challenge match for the Longwood bowl.

NEW CUP OFFERED IN TENNIS TOURNEY AT GOLF CLUB NEXT WEEK

Hamilton Jewelry Company Donates Trophy for Men's Singles Contests

Additional interest is given the annual open tennis tournament, which will be held at the Colorado Springs Golf club next week, by the announcement that the Hamilton cup, offered in the men's singles competition, will be played for the first time. The cup, which is one of the most attractive ever contested for in Colorado, is donated by the Hamilton Jewelry company of this city and will remain the property of the Golf club. The winner will have his name engraved on the cup and will receive from the club an individual cup.

The trophies, consisting of loving cups for the winners and runners-up in men's singles and doubles and mixed doubles and the winner of the consolation singles, will be displayed by the Hamilton Jewelry company at its store Saturday and Sunday. They will be put on display at the Golf club Monday morning.

The courts at the Golf club will be opened today to all entrants, whether members of the club or not, for practice. Entries close at 4 p. m. Sunday, at which time the drawings will be made. Among the singles entries to date are those of Daniel Knowlton, E. L. Kernochan, E. A. Bissell, J. M. Smith of New Orleans, H. H. Fawcett, McFann Spingle, Oswald Seldomridge. Kernochan and Knowlton will be strong contenders for the men's doubles trophies.

ROY HARTZELL.

Roy Hartzell, the star left fielder for the New York Americans, is one of the most consistant hitters in he league. Hartzell is said to be the best utility man for the Yanks. His work with the team has won him many friends among the fans.

CLAIRVOYANTS

PROF. GARLAND

THE GREAT CLAIRVOYANT.

YOUR WISH AND OBJECT IN LIFE CAN BE ATTAINED.
A SECRET YOU SHOULD KNOW—THE POWER TO CONTROL.
KNOW WHAT TO DO.
KNOW THE TRUTH—KNOW IN TIME.

Does everything seem to go wrong? Has you life been full of ups and downs? Do not be despondent in life and give up; there is lots in life for you. Come and I will help you.

Come, do not despair, as you can learn the true road to success and happiness, for both await you.

IT MAY BE OF VITAL INTEREST TO YOU TO KNOW

The outcome of your present distress. The happiness of your future life may depend upon the right solution and proper advice.

THE REASON WHY PEOPLE DO NOT ACHIEVE MORE IN LIFE IS BECAUSE THEY ARE TOO SKEPTICAL OF THE OPPORTUNITIES OFFERED THEM.

Success is the favorable or prosperous termination of anything attended, a termination which answers the purpose intended. Everybody endeavors to be successful in business, love, health and the other various desires that concern life and happiness. Whether you are successful or not depends upon yourself. If your present success depends upon a knowledge of the future, Prof. Garland, the marvelous seer, who has helped thousands of others to the goal of success and happiness, can help you as well.

A TRUE CLAIRVOYANT IS BORN, NOT MADE.

He positively can help anyone that needs help.

Testimonials (no names ever printed):

"My husband came back through your power. God bless you."—M. J. S.

"I learned to control another person by Prof. Garland."—O. M. T.

"I got married through Prof. Garland, and am perfectly happy."—N. A.

"I was started in business by Prof. Garland and am doing well."—A. K. V.

"I had an evil power over me; Prof. Garland removed it."—G. W. B.

As a seer and interpreter of things hidden Prof. Garland has no equal. Advice on business, speculation, all love and domestic troubles, settles love and domestic troubles, settles lovers' quarrels, reunites the separated, tells when you will marry, how to WIN the man or woman you love; how to overcome all enemies; gives full secret how to control or influence any one you love or meet.

MADAM ELLOON

CLAIRVOYANT AND PALMIST
212 S. TEJON ST.

Psychic medium. Advises on love, marriage, divorce, lawsuits, family trouble, tells names, dates, reunites separated; causes success in your undertakings. "Knowledge is Power." Consult the world-famed psychic, seer, healer, teacher. The vital problems of life are quickly solved; failure turned to success, sorrow to joy, illness to health, want to affluence, by possessing and calling into use the power to know one's real self. This power of knowledge whether instructive or acquired, reveals and illumines the way that leads to health, harmony, success and happiness.

IF YOU ARE ILL IN MIND AND BODY, if you are in doubt or trouble, unhappy or unsuccessful, no matter what the nature or cause of your illness or difficulties may be, call on this gifted woman. She will help you or take no pay. Her advice and help is always absolutely reliable. Madam Elloon, 212 South Tejon St. Hours, 9 a. m. to 9 p. m. Satisfaction guaranteed or no pay.

MOVED, from 114½ E. Pikes Peak, MRS. SAMPSON—Noted psychic; all work guaranteed. Readings daily. Spiritual meetings Sun., Thurs. eve., 8 sharp, now at 113 N. Nevada.

CLAIRVOYANTS

PROF. GARLAND

THE GREAT CLAIRVOYANT.

YOUR WISH AND OBJECT IN LIFE CAN BE ATTAINED.
A SECRET YOU SHOULD KNOW—THE POWER TO CONTROL.
KNOW WHAT TO DO.
KNOW THE TRUTH—KNOW IN TIME.

Does everything seem to go wrong? Has you life been full of ups and downs? Do not be despondent in life and give up; there is lots in life for you. Come and I will help you.

Come, do not despair, as you can learn the true road to success and happiness, for both await you.

IT MAY BE OF VITAL INTEREST TO YOU TO KNOW

The outcome of your present distress. The happiness of your future life may depend upon the right solution and proper advice.

THE REASON WHY PEOPLE DO NOT ACHIEVE MORE IN LIFE IS BECAUSE THEY ARE TOO SKEPTICAL OF THE OPPORTUNITIES OFFERED THEM.

Success is the favorable or prosperous termination of anything attended, a termination which answers the purpose intended. Everybody endeavors to be successful in business, love, health and the other various desires that concern life and happiness. Whether you are successful or not depends upon yourself. If your present success depends upon a knowledge of the future, Prof. Garland, the marvelous seer, who has helped thousands of others to the goal of success and happiness, can help you as well.

A TRUE CLAIRVOYANT IS BORN, NOT MADE.

He positively can help anyone that needs help.

NEW YORK MARKET

NEW YORK, July 28.—To find a parallel for the panicky conditions which swept over today's stock market, it is necessary to go back to the autumn of 1907, when securities values crumbled away because of disastrous domestic conditions. The impelling factor today was the war crisis in Europe.

The day opened with another low range of prices for our stocks in the London market. Initial prices here were in no instance as low as those recorded abroad, although declines of 2 to 3 points were general.

It was not until after midday, when Austria's attitude became known, that the market here was seriously affected. Although all foreign markets were closed, outpouring of stocks for London, Paris and Berlin became more urgent, until they reached the maximum proportion of 300,000 shares in the final hour and over 1,000,000 for the day.

The shrinkage of values was materially assisted by short selling and impaired margins. Canadian Pacific fell until it yielded a total of 19⅝ points, with 4 to 6 points losses in all parts of the international list. Apprehension was increased by further heavy gold exports to Paris and London. Foreign exchange rates were utterly demoralized. Many brokers declined to make quotations at all.

The selling gathered greater impetus in the final dealings, being coincident with rumors that Russia had agreed to support Servia. At the same time word came from Montreal and Toronto of the premature closing of the exchanges in those cities. There were fitful rallies of a point or two from the low, but these were offset by continued offerings with an exceedingly weak close.

United States Steel's quarterly statement was not issued until after the session here had terminated. The bond market followed the course of stocks with some sharp recessions. Total sales, par value, $3,300,000.

United States government coupon 4s declined 1¼ per cent on call.

CHICAGO MARKET

CHICAGO, July 28.—War excitement today resulted in wheat transactions far up in the millions and in a shift rise of prices. The market closed feverish at the topmost point reached, 8¼c to 9¼c over last night. Other net gains for the day were: Corn, 1¾c to 1⅞c; oats, 1¼c to 1⅜c, and provisions generally, 5c to 7½c.

To get a clear idea of the difference which the war news made in regard to wheat, the fact need only be recalled that a change of more than 2 cents a bushels in 24 hours is ample, as a rule, to cause a widespread flurry. Today's fluctuations of 2 cents in a couple of minutes became almost commonplace after the news flashed that hostilities had been formally declared. Up to that time the market had shown a decided tendency to sag and had not begun to display extraordinary strength until after it was known that Germany had refused to join Great Britain in an eleventh-hour attempt at peace.

Rumors of Russian military movement on the German frontier carried prices again suddenly upward and the maddest whirl of the day ensued when just at the close there was word over the wires that British battle squadrons had received a command to mobilize.

Possible stoppage of all wheat exports from Russia, the principal competing country at present, formed one of the chief elements of fear that drove the trade wild.

Corn advanced with wheat, although in a somewhat halting way, until just before the close. The oats market took the same bullish course.

Provisions felt the effect of the war only indirectly through sympathy with grain.

MINE MANAGER HELD FOR MURDER PROBE

BOULDER, Colo., July 28.—Wilson Davis, manager of the Lost Lode mine at Eldora, was arrested today and held for investigation in connection with the killing of Charles N. Smith, whose body was found in the Caledonia tunnel at Eldora on June 13. No information has been filed against Davis.

The coroner's jury decided that Smith has been killed and his body blown up to hide the crime.

The Pribilof islands is the seat of the most important seal colony in the world. Next in importance is the Commander herd, owned by Russia, while the Kuril herd, owned by Japan, comes third.

THE FRANKLIN CALENDAR

JULY 29.

I will venture to lay down for an infallible rule that if two persons, equal in judgement played (draughts) for a considerable sum, be that loves money most will lose; his anxiety for the success of the game confounds him.

COLUMBINE PICTURE—A group picture of the Columbine dance will be taken this afternoon at 2 o'clock in Monument Valley park, and all the girls who are to take part in the dance are requested to report for the picture at that time. Dress rehearsals will be held at each playground this afternoon, and all children are urged to be present. Pictures of the groups at the different playgrounds will be taken.

BUILDING PERMIT—A building permit was issued yesterday to the Colorado Investment and Realty company for the erection of a five-room bungalow, to cost $2,900, at 1111 North Corona street.

MARRIAGE—Harry Douglas Hawes of Belpre, Kan., and Miss Nora Virginia Auten of Akron, Colo., were married yesterday afternoon at the Rex hotel. The ceremony was performed by Justice O. R. Dunnington.

CATHOLIC CONVERTS' CLASS—This evening at 7:30 o'clock the Apostles' creed will be explained to converts and others interested. The instruction will be given in St. Mary's Catholic church, 26 West Kiowa street.

TOURING PARTY—A Murrin Yellowstone party of 40 people is due to arrive here this morning at 6:30 o'clock over the Santa Fe railroad, en route for the park, and will remain in Colorado Springs until tomorrow morning.

ASSEMBLY CAR—A special coach for the use of local Democratic delegates attending the state assembly in Denver will be run over the D. & R. G. railroad this afternoon on No. 14, leaving Colorado Springs at 1:35 o'clock.

COOK PARTY—A Thomas Cook & Son special car, carrying 25 people, will arrive here tomorrow afternoon at 5:35 o'clock over the D. & R. G. railroad. The party will stay in Colorado Springs long enough to take in all the points of interest.

MARRIAGE LICENSES — Marriage licenses were issued yesterday to Leroy Roberts, 31, Woodland Park, and Laura Lofland, Green Mountain Falls; Harry Douglas Hawes, 27, Belpre, Kan., and Nora Virginia Auten, 22, Akron, Colo.

Delicious Fresh Rolls
These picnicky days you'll want the nicest rolls you can find for lunch, dinner or special occasion. So many kinds you'll find here; the ample French, dainty Vienna or "finger roll," the long dinner roll, round Vienna buns, spicy Mohn rolls, Parkerhouse, crescent, cinnamon, and others.
They're all temptingly delicious, because made by a master hand from the finest and purest of materials.
They're priced at 10c and 15c a dozen, according to kind. Call us up and let us tell you more about them. They're fresh every day.
